## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 4-10, 29, 32, 33 are rejected under 35 U.S.C. 102(e) as being anticipated by Kim et al (US 6,806,913).

#### **Claim 1:**

Kim disclosed all the claimed invention:

“means for requesting a guidance on a data broadcasting, wherein the requesting means is a guidance setting button key on the bi-directional remote controller”, see col. 5 lines 20-23, col. 4 lines 57-64, the system of Fig. 2 has been considered as a bi-directional remote controller and the requesting means is a guidance setting button key on the system as claimed and as pointed out;

“the bi-directional remote controller for receiving guidance information provided from an outside of the bi-directional remote controller in response to the request”, see the system of Fig. 2 which has been considered as a bi-directional remote controller,

because it receives guidance information provided from an outside in response to the request, as claimed, see col. 5 lines 20-29, col. 4 lines 10-18, lines 57-64;

“and means for notifying the received guidance information”, see col. 5 lines 28-38,

“wherein the guidance information is extracted from the data broadcasting and wherein the guidance information is used for a user to operate at least one function being included in the data broadcasting”, see col. 6 lines 30-54, col. 5 lines 30-67, col. 4 lines 10-25.

Claims 4-6 are disclosed, see Fig. 4.

Claims 7, 8 are disclosed, see Fig. 4.

Claims 9, 10 are disclosed, see Fig. 4.

Claim 29 is disclosed, see col. 7 lines 5-12, Fig. 4.

Claims 32, 33 are rejected for the same reasons as claims 1, 4, 5; the limitation “the at least one button key is marked on the bi-directional remote controller according to the guidance information” is met by Fig. 4.

### ***Response to Arguments***

3. Applicant's arguments have been fully considered but they are moot, because of the amendment and the new limitations have been addressed in the rejection.

### ***Allowable Subject Matter***

4. Claims 11-18, 20-27, 31 are allowed.
